REHABILITATIVE HEALTH SERVICES TO MEET MANY NEEDS

People Inc. Rehabilitative Health Services provides individualized care and a comprehensive team approach to address various needs. We specialize in treatment plans for people with developmental disabilities. Our team of experienced clinicians assist patients by addressing strength, movement, balance, coordination and communication to better help people lessen pain and enhance their life.

PHYSICAL THERAPY

Helps maintain and restore functional abilities following injury, surgery or disease.

Our Physical Therapists are experts in treating:

- Developmental and neurological disorders
- Orthopedic ailments and injuries
- Chronic and acute neck and back pain
- Impaired mobility, balance and gait dysfunction
- Stroke, traumatic brain injuries and amputation

We also offer:

- Adaptive and assistive device assessments, including wheelchairs, walkers, canes and braces

OCCUPATIONAL THERAPY

Helps people make the most of their abilities and encourages independence in activities of daily living.

Our Occupational Therapists are experts in treating:

- Developmental and neurological disorders
- Upper extremity orthopedic ailments and injuries
- Sensory, perceptual and cognitive disorders
- Stroke, traumatic brain injuries and amputation
- Ergonomic challenges and limitations in work and home settings
- Difficulties with self care tasks, such as feeding, dressing, cooking, personal hygiene, home making skills, etc.

We also offer:

- Adaptive equipment assessments for self care activities, i.e., dressing, bathing and feeding
- Upper extremity splinting and bracing evaluations

SPEECH AND LANGUAGE SERVICES

Our Speech-Language Pathologist diagnoses and treats communication disorders. Our team specialize in speech language therapy for people with developmental disabilities, along with experience with AAC evaluations and therapy.

Communication disorder may be related to:

- Stroke
 - Developmental language delays
 - Oral motor weakness
 - Voice dysfunction
 - Stuttering
 - Articulation disorders
 - Central auditory disorder
 - Traumatic brain injury
- We also offer:**
- Table-side swallow evaluations
 - Evaluations for assistive and augmentative communication devices (e.g. Dynavox, iPad)

WHEELCHAIR CLINIC

Our RESNA certified Assistive Technology Practitioner (ATP) teams up with local vendors to provide evaluations for new wheelchairs with seating systems, adjustments to existing chairs and repairs. A state-of-the-art pressure mapping system by BodiTrak Pro is used to enhance wheelchair selection for even the most complex user. The BodiTrak Pro is a tool used to assist therapists in determining the optimal pressure distribution and pressure reduction solutions, preventing complications from long-term wheelchair use, such as skin breakdown. The clinic runs one to two times per week.

CONTACT

If you are in need of rehabilitative health services, please call 716.566.5050 to schedule an initial evaluation. Morning, afternoon and evening appointments are available. Most insurances are accepted.

Our People Inc. Rehabilitative Health Services is located in North Buffalo and easy to get to from major highways. We are located close to the Hertel Avenue District and Elmwood Village. We also offer rehabilitative health services at some of our day program locations.
